JCM Validation Report Form

A. Summary of validation	
A.1. General Information	
Title of the project	
Reference number	
Third-party entity (TPE)	
Project participant contracting the TPE	
Date of completion of this report	
A.2 Conclusion of validation and level of a	assurance Positive
Overall validation opinion	☐ Negative
Unqualified opinion	Based on the process and procedure conducted, XXX (TPE's name) provides reasonable assurance that the emission reductions or removals for YYYY (project name) ✓ Are free of material errors and are a fair representation of the GHG data and information, and ✓ Are prepared in line with the related JCM rules, procedure, guidelines, forms and other relevant documents
(If the overall validation opinion is negative, please check below and state its reasons.) Qualified Opinion Adverse opinion Disclaimer	<state reasons="" the=""></state>
_ *	

A.3. Overview of final validation conclusion

Only when all of the checkboxes are checked, overall validation opinion is positive.

Item	Item Validation requirements	
		remaining
Project design	The TPE determines whether the PDD was completed using	
document form	the latest version of the PDD forms appropriate to the type	
	of project and drafted in line with the Guidelines for	
	Developing the Joint Crediting Mechanism (JCM) Project	
	Design Document, Monitoring Plan and Monitoring Report.	
Project	The description of the proposed JCM project in the PDD is	

Item	Validation requir	No CAR or CL remaining	
description	accurate, complete, and provides proposed JCM project.	remaining	
Application of approved JCM methodology (ies)	The project is eligible for applying that the applied version is valid at the proposed JCM project for valid		
Emission sources and calculation of emission	All relevant GHG emission so methodology are addressed for th project emissions or removals and removals for the proposed JCM pro		
reductions	The values for project specific parameters to be fixed <i>ex ante</i> listed in the Monitoring Plan Sheet are appropriate, if applicable.		
Environmental impact assessment	The project participants conducted assessment, if required by (Partnet (Partner Country) procedures.		
Local stakeholder consultation	The project participants have comp consultation process and that due st stakeholders and solicit comments	teps were taken to engage	
Monitoring	The description of the Monitoring Sheet and Monitoring Structure approved methodology and/or Guthe Joint Crediting Mechanism Document, Monitoring Plan, and Management The monitoring points for measure well as whether the types of equipappropriate if necessary. The TPE uncertainty has been addressed appropriate and Monitoring Plan and Management		
Public inputs	All inputs on the PDD of the proposed JCM project submitted in line with the Project Cycle Procedure are taken into due account by the project participants.		
Modalities of communications	The corporate identity of all project participants and a focal point, as well as the personal identities, including specimen signatures and employment status, of their authorized signatories are included in the MoC.		
	The MoC has been correctly completed and duly authorized.		
Avoidance of double registration	The proposed JCM project is not registered under other GHG mitigation crediting mechanisms.		
Start of operation	The start of the operating date of the proposed JCM project does not predate January 1, 2013.

B. Validation team and other experts

Name	Company	Function*	Scheme competence*	Technical competence*	On-site visit

Please specify the following for each item.

- * Function: Indicate the role of the personnel in the validation activity such as team leader, team member, technical expert, or internal reviewer.
- * Scheme competence: Check the boxes if the personnel have sufficient knowledge on the JCM.
- * Technical competence: Indicate if the personnel have sufficient technical competence related to the project under validation.

C. Means of validation, findings, and conclusion based on reporting requirements

C.1. Project design document form

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.2. Project description

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.3. Application of approved methodology(ies)

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.4. Emission sources and calculation of emission reductions or removals

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.5. Environmental impact assessment

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.6. Local stakeholder consultation

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.	

C.7. Monitoring

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.8. Modalities of Communication

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.9. Avoidance of double registration

<Means of validation>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

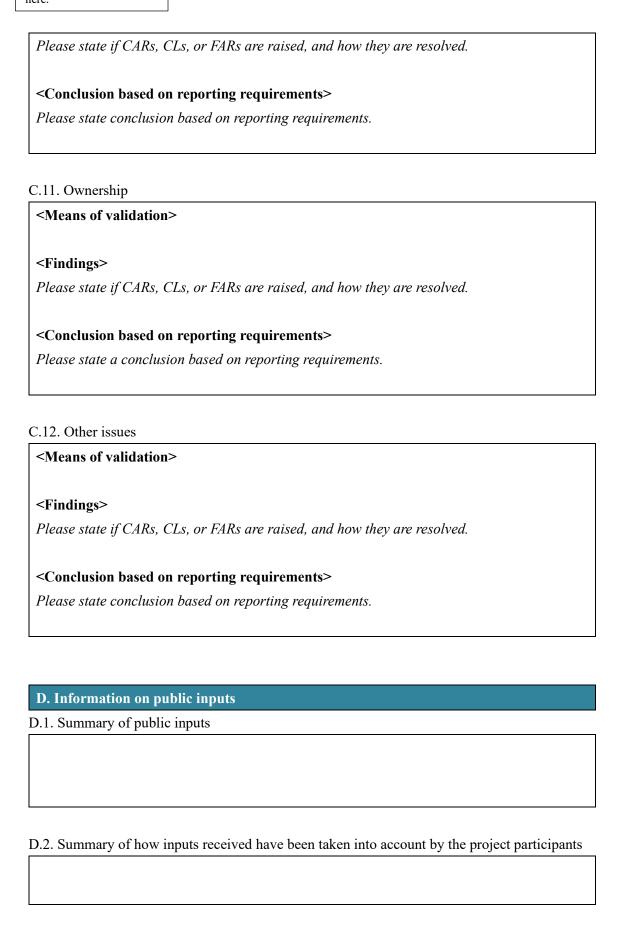

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.10. Start of operation

<Means of validation>

<Findings>
