JCM Verification Report Form

A. Summary of verification		
A.1. General Information		
Title of the project		
Reference number		
Monitoring period		
Date of completion of the monitoring report		
Third-party entity (TPE)		
Project participant contracting the TPE		
Date of completion of this report		

A.2 Conclusion of verification and level of assurance

Overall verification opinion	Positive
	Negative
Unqualified opinion	Based on the process and procedure conducted, XXX
	(TPE's name) provides reasonable assurance that the
	emission reductions for YYYY (project name)
	\checkmark Are free of material errors and are a fair
	representation of the GHG data and information, and
	\checkmark Are prepared in line with the related JCM rules,
	procedure, guidelines, forms and other relevant
	documents
(If overall verification opinion is	<state reasons="" the=""></state>
negative, please check below and state its reasons.)	
Qualified Opinion	
Adverse opinion	
Disclaimer	

A.3. Overview of the verification results

Item	Verification requirements	No CAR or CL
		remaining
The project	The TPE determines the conformity of the actual	
implementation with	project and its operation with the eligibility criteria of	
the eligibility criteria	the applied methodology.	
of the applied		
methodology		
The project	The TPE assesses the status of the actual project and	

Item	Verification requirements	No CAR or CL
		remaining
implementation against the registered PDD or any approved revised PDD	its operation with the registered/validated PDD or any approved revised PDD.	
and correction of	If monitoring Option C is selected, the TPE determines whether the measuring equipments have been properly calibrated in line with the monitoring plan and whether measured values are properly corrected, where necessary, to calculate emission reductions in line with the PDD and Monitoring Guidelines.	
	The TPE assesses the data and calculations of GHG emission reductions achieved by/resulting from the project by the application of the selected approved methodology.	
Avoidance of double registration	The TPE determines whether the project is not registered under other international climate mitigation mechanisms.	
Post registration changes	The TPE determines whether there are post registration changes from the registered PDD and/or methodology which prevent the use of the applied methodology.

B. Verification team and other experts

	Name	Company	Function*	Scheme competence*	Technical competence*	On-sit e visit
Mr. Ms.						
Mr. Ms.						
Mr. Ms.						
Mr. Ms.						

Please specify the following for each item.

- * Function: Indicate the role of the personnel in the validation activity such as team leader, team member, technical expert, or internal reviewer.
- * Scheme competence: Check the boxes if the personnel have sufficient knowledge on the JCM.
- * Technical competence: Indicate if the personnel have sufficient technical competence related to the project under validation.

C. Means of verification, findings and conclusions based on reporting requirements

C.1. Compliance of the project implementation and operation with the eligibility criteria of the applied methodology

<Means of verification>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.2. Assessment of the project implementation against the registered PDD or any approved revised PDD

<Means of verification>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.3. Compliance of calibration frequency and correction of measured values with related requirements

<Means of verification>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.4. Assessment of data and calculation of GHG emission reductions

<means of="" th="" ve<=""><th>rification></th><th></th></means>	rification>	
Parameters	Monitored	Method to check values in the monitoring report with
	values	sources

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.5. Assessment of avoidance of double registration

<Means of verification>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

C.6. Post registration changes

<Means of verification>

<Findings>

Please state if CARs, CLs, or FARs are raised, and how they are resolved.

<Conclusion based on reporting requirements>

Please state conclusion based on reporting requirements.

D. Assessment of response to remaining issues

An assessment of response to the remaining issues including FARs from the validation and/or previous verification period, if appropriate
