Category		No.	Term	Definition
Emission		1.	Greenhouse Gases	GHG are those gases of carbon dioxide (CO ₂),
reductions of	or		(GHG)	methane (CH_4) , nitrous oxide (N_2O) ,
removals				hydrofluorocarbons (HFCs), perfluorocarbons
				(PFCs), sulphur hexafluoride (SF ₆) and nitrogen
				trifluoride (NF ₃) (RoI para.3).
		2.	JCM project	GHG emission reductions or removals project
				activities under the JCM (RoI para.4).
	-	3.	Crediting period	The period in which verified emission reductions or removals attributable to a JCM project can result in the issuance of JCM credits from that JCM project. The crediting period is either a fixed period of 10 years or a renewable period of five (5) years which may be renewed twice at the maximum, which does
	-	4	Eli aileiliter anitania	not surpass the period of the JCM (RoI para.6).
		4.	Eligibility criteria	Eligibility criteria are requirements for the JCM project defined in the JCM methodology and contain the followings: (a) Requirements for the project in order to be
				registered as a JCM project;
				(b) Requirements for the project to be able to apply the
				JCM methodology.
	-	5.	Reference	The reference emissions are established in a manner
			emissions	that a proposed project contributes to the achievement
				of the latest nationally determined contributions of the
	_			host country under the Paris Agreement.
		6.	Business-as-usual	Business-as-usual (BaU) emissions represent
			(BaU) emissions	plausible emissions in providing the same outputs or
				service level of the proposed JCM project in the host
	-	-	a 111 1 1 1 1	country.
		7.	Crediting threshold	Crediting threshold is typically expressed as GHG emissions per unit of output. A crediting threshold is established <i>ex ante</i> in the methodology applicable for the same project type in the host country. It should also be established conservatively in order to calculate reference emissions below BaU emissions.
	Ī	8.	Emissions sources	Those emissions sources and GHG types whose
			and GHG types	emissions are significant and reasonably attributable
	ŀ		~	to the JCM project.
		9.	Sinks and GHG	Those sinks and GHG types whose removals or
			types	emissions are significant and reasonably attributable
	╞	10	Castani 1	to the JCM project.
		10.	Sectoral scope	The category of GHG source sectors or groups of
				activities that apply to JCM projects. It is based on the
				sectoral scope for the CDM. A JCM project may fall within more than one sectoral scope
	ŀ	11.	Level of assurance	within more than one sectoral scope. Level of assurance is defined as degree of assurance
		11.	Level of assurance	the Joint Committee requires in a verification.
				The level of assurance is used to determine the depth
				of detail that a verifier designs into their verification
				plan to determine if there are any material errors,
I	L			press to determine it where are any material efforts,

Joint Crediting Mechanism Glossary of Term

Category	No.	Term	Definition
			omissions or misrepresentations.
	12.	Materiality	Materiality is a concept that individual or the aggregation of errors, omissions and misrepresentations could affect the greenhouse gas assertion and could influence the intended users' decisions.
Governance	13.	Each government ¹	 Each government, based on the rules and guidelines as developed by the Joint Committee and in accordance with relevant domestic laws and regulations in respective countries to the implementation of the JCM: (a) Establishes and maintains a registry in line with the Common Specifications of the JCM Registry; (b) On the basis of notification for issuance of JCM credits by the Joint Committee, issues the notified amount of JCM credits to their respective registries. Each government promptly informs the other government of the issuance of JCM credits (RoI pare 14, 15)
	14.	Joint Committee	para.14-15). The Joint Committee consists of the representatives from the Government of Japan and the Cabinet of Ministers of the Kyrgyz Republic. The Joint Committee develops or modifies the rules and guidelines necessary for the implementation of the JCM, approves proposed methodologies, designates third party entities, registers JCM projects, and notifies both governments to issue credits for a JCM project.
	15.	JCM secretariat	The Joint Committee establishes its secretariat for the implementation of the JCM. (RoI para.13).
	16.	Third-party entity	A third-party entity is an entity designated by the Joint Committee, based on the criteria and procedures established by the "Joint Crediting Mechanism Guidelines for Designation as a Third-Party Entity", as qualified to validate proposed JCM projects as well as verify GHG emission reductions or removals.
	17.	Project participant	A project participant is a government, private entity and/or public entity involved to participate in a JCM project which may develop and implement a JCM project, monitor and report GHG emission reductions or removals, and requests the Joint Committee to notify each government to issue JCM credits.
Documents/	18.	Project Idea Nota	A Project Idea Note is a document which describes an
infrastructure	10.	Project Idea Note (PIN)	overview of a planned project of project participants.
	19.	Methodology	A methodology applied to JCM project for calculating emission reductions achieved by each project and monitoring the JCM project. A proposed methodology is a methodology that has

¹ The Government of Japan and the Cabinet of Ministers of the Kyrgyz Republic (hereinafter referred to individually as a "government" and collectively as "both governments")

20. Proposed Methodology form and Proposed Methodology Spreadsheet. An approved methodology is a methodology that has been approved by the Joint Committee for application to JCM projects. An approved methodology consists of an approved methodology consists of an approved methodology consists of an approved methodology consists. 20. Proposed A. Proposed Methodology Spreadsheet. Approved methodology consists of mapping provide methodology consists. 20. Proposed A. Proposed Methodology Spreadsheet is a part of a proposed methodology Spreadsheet is a part of a monitoring plan and enables calculation of GHG emission reductions automatically through inputting values. The Proposed Methodology Spreadsheet consists of an input sheet and calculation process sheet). 21. Monitoring A Monitoring Spreadsheet is a part of an approved methodology. Spreadsheet A Monitoring Spreadsheet is a part of an approved methodology. Spreadsheet A Monitoring Spreadsheet is a part of an approved methodology. Spreadsheet A Monitoring Spreadsheet is a part of an approved methodology. Spreadsheet The Monitoring Spreadsheet is a part of an approved methodology. Spreadsheet Spreadsheet is a part of an approved methodology. Spreadsheet The Monitoring Spreadsheet is a deal for propersing a monitoring plan and calculation process sheet). Monitoring Control File Proposed Methodology Spreadsheet is deal of the proposed methodology is be used
21. Monitoring Spreadsheet. A roposed methodology spreadsheet is a part of a proposed methodology Spreadsheet 21. Monitoring plan and enables calculation process here thomas and monitoring plan and enables calculation of GHG enables. 21. Monitoring Spreadsheet is a part of a monitoring plan and enables calculation of GHG enables. 21. Monitoring Spreadsheet is a part of a monitoring plan and enables calculation of GHG enables. 21. Monitoring Spreadsheet is a part of a monitoring plan and enables. 21. Monitoring Spreadsheet is a part of a approved methodology. 21. Monitoring Spreadsheet is a part of a approved methodology. 22. Proposed Methodology. Spreadsheet A Monitoring Spreadsheet consists of a Monitoring Structure Sheet and calculation process sheet). Monitoring Report Sheet is used for preparing a monitoring Plan Sheet and calculation process sheet). Monitoring Report Sheet is used for preparing a monitoring Plan Sheet and Monitoring Structure Sheet and Monitoring Report Sheet sheet is added by the JOM secretariat after the approval of the proposed methodology by the Joint Committee. 22. Project design document prepared by the project participant of a CM project which sets out in detail the JCM project. A Project design document (PDD) Monitoring Plan The document prepared by the project participant of a CM project design document (PDD) consists of a completed P
20. Proposed Methodology Spreadsheet A Proposed Methodology Spreadsheet is a part of a proposed Methodology Spreadsheet is a part of a montoring plan and enables calculation of GHG emission reductions automatically through inputting values. The Proposed Methodology Spreadsheet defines a monitoring plan and enables calculation of GHG emission reductions automatically through inputting values. The Proposed Methodology Spreadsheet consists of an input sheet and calculation process sheet. 21. Monitoring Spreadsheet A Monitoring Spreadsheet is a part of an approved methodology. The Monitoring Spreadsheet is a part of an approved methodology. The Monitoring Spreadsheet consists of a Monitoring Plan Sheet (input sheet and calculation process sheet). 21. Monitoring methodology Spreadsheet A Monitoring Spreadsheet consists of a Monitoring Plan Sheet (input sheet and calculation process sheet). 22. Project design document (PDD) Monitoring Plan Sheet is used for preparing a monitoring Plan Sheet and Monitoring Report Sheet are prepared by the Dropsed Methodology Spreadsheet. The Monitoring Structure Sheet are prepared by the Dropsed methodology by the Joint Committee. 22. Project design document (PDD) The Monitoring Spreadsheet. The form of PDD, Monitoring Spreadsheet. The form of PDD, Monitoring Spreadsheet. The form of PDD, Monitoring Plan Sheet and Monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Plan Sheet and Monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Plan Sheet and Monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Plan Sheet and Monitoring of and by third-party
20. Proposed Methodology Spreadsheet A Proposed Methodology Spreadsheet is a part of a proposed methodology developed by methodology proponents. A Proposed Methodology Spreadsheet defines a monitoring plan and enables calculation of GHG emission reductions automatically through inputting values. The Proposed Methodology Spreadsheet consists of an input sheet and calculation process sheet. 21. Monitoring Spreadsheet A Monitoring Spreadsheet is a part of an approved methodology. The Monitoring Spreadsheet consists of a Monitoring Plan Sheet (input sheet and calculation process sheet). Monitoring Structure Sheet, and Monitoring Report Sheet (input sheet and calculation process sheet). Monitoring Report Sheet is used for preparing a monitoring report and calculating emission reductions <i>ex post</i> . The Monitoring Raport the Monitoring Report Sheet are used for developing a monitoring plan and calculating emission reductions <i>ex ante</i> . The Monitoring Report Sheet is used for preparing a monitoring report and calculating emission reductions <i>ex post</i> . The Monitoring Plan Sheet and Monitoring Report Sheet are prepared based on the Proposed Methodology Spreadsheet and the Monitoring Report Sheet are prepared by the JCM scretaria after the approval of the proposed methodology by the Joint Committee. 22. Project design document (PDD) The document prepared by the project participant of a JCM project which sets out in detail the JCM project. A Project design document (PDD) consists of a completed PDD form and monitoring plan using a Monitoring Plan Sheet and Monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Plan sets out the methodology to be used by project participants for the monitoring of, and by third-party entities for verification of the amount of GHGs emission reductions achieved by the JCM proje
21. Monitoring Spreadsheet A Monitoring Spreadsheet is a part of an approved methodology. 21. Monitoring Spreadsheet A Monitoring Spreadsheet is a part of an approved methodology. 21. Monitoring Spreadsheet A Monitoring Spreadsheet consists of a Monitoring Plan Sheet (input sheet and calculation process sheet). Monitoring Structure Sheet, and Monitoring Report Sheet (input sheet and calculation process sheet). The Monitoring Plan Sheet and Calculation process sheet). Monitoring Plan Sheet are used for developing a monitoring plan and calculating emission reductions ex ante. The Monitoring Report Sheet is used for preparing a monitoring report and calculating emission reductions ex post. The Monitoring Plan Sheet and Monitoring Report Sheet are prepared based on the Proposed Methodology Spreadsheet and the Monitoring Structure Sheet is added by the JCM secretariat after the approval of the proposed methodology by the Joint Committee. 22. Project design document (PDD) The document prepared by the project participant of a JCM project which sets out in detail the JCM project. A Project design document (PDD) consists of a completed PDD form and monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Spreadsheet, and guidelines on preparing the PDD, are publicly available through the JCM website. 23. Monitoring plan A monitoring plan sets out the methodology to be used by project participants for the monitoring Structure Sheet of Monitoring Plan Sheet and M
21. Monitoring Spreadsheet A Monitoring Spreadsheet is a part of an approved methodology. The Monitoring Spreadsheet consists of a Monitoring Plan Sheet (input sheet and calculation process sheet), Monitoring Structure Sheet, and Monitoring Report Sheet (input sheet and calculation process sheet). The Monitoring Plan Sheet and Monitoring Structure Sheet are used for developing a monitoring plan and calculating emission reductions ex ante. The Monitoring Report Sheet is used for preparing a monitoring report and calculating emission reductions ex post. The Monitoring Plan Sheet and Monitoring Report Sheet are prepared based on the Proposed Methodology Spreadsheet and the Monitoring Structure Sheet is added by the JCM secretariat after the approval of the proposed methodology by the Joint Committee. 22. Project design document (PDD) The document prepared by the project participant of a JCM project which sets out in detail the JCM project. A Project design document (PDD) consists of a completed PDD form and monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Plan Sheet and Monitoring Structure Sheet of the Monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Plan sets out the methodology to be used by project participants for the monitoring of, and by third-party entities for verification of the amount of GHGs emission reductions achieved by the JCM project. A monitoring Plan is developed using Monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Plan sheet and Monitoring Structure Sheet of Monitoring Plan sheet and Monitoring Structure Sheet of Monitoring Plan is developed using Monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Plan sheet and Monitoring Structure Sheet of Monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Spreadsheet.
Plan Sheet (input sheet and calculation process sheet), Monitoring Structure Sheet, and Monitoring Report Sheet (input sheet and calculation process sheet). The Monitoring Plan Sheet and Monitoring plan and calculating emission reductions ex ante. The Monitoring Report Sheet is used for preparing a monitoring Report Sheet are used for developing a monitoring plan and calculating emission reductions ex ante. The Monitoring Report Sheet are prepared based on the Proposed Methodology Spreadsheet and the Monitoring Structure Sheet are prepared based on the Proposed Methodology Spreadsheet and the Monitoring Structure Sheet is added by the JCM secretariat after the approval of the proposed methodology by the Joint Committee.22.Project design document (PDD)The document prepared by the project participant of a JCM project which sets out in detail the JCM project. A Project design document (PDD) consists of a completed PDD form and monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Spreadsheet, and guidelines on preparing the PDD, are publicly available through the JCM website.23.Monitoring planA monitoring plan sets out the methodology to be used by third-party entities for verification of the amount of GHGs emission reductions achieved by the JCM project. A monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Plan Sheet.24.Monitoring reportA monitoring report is prepared by a project
22.Projectdesign document (PDD)Monitoring Report Sheet is used for preparing a monitoring report and calculating emission reductions ex post. The Monitoring Plan Sheet and Monitoring Report Sheet are prepared based on the Proposed Methodology Spreadsheet and the Monitoring Structure Sheet is added by the JCM secretariat after the approval of the proposed methodology by the Joint Committee.22.Projectdesign document (PDD)The document prepared by the project participant of a JCM project which sets out in detail the JCM project. A Project design document (PDD) consists of a completed PDD form and monitoring plan using a Monitoring Plan Sheet and Monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Spreadsheet, and guidelines on preparing the PDD, are publicly available through the JCM website.23.Monitoring planA monitoring plan sets out the methodology to be used by project participants for the monitoring of, and by third-party entities for verification of the amount of GHGs emission reductions achieved by the JCM project. A monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Remosed and Monitoring Structure Sheet of Mon
22.Projectdesign document (PDD)The document prepared by the project participant of a JCM project which sets out in detail the JCM project. A Project design document (PDD) consists of a completed PDD form and monitoring plan using a Monitoring Plan Sheet and Monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Spreadsheet, and guidelines on preparing the PDD, are publicly available through the JCM website.23.Monitoring planA monitoring plan sets out the methodology to be used by project participants for the monitoring of, and by third-party entities for verification of the amount of GHGs emission reductions achieved by the JCM project. A monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring plan is developed using Monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring plan is developed using Monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Spreadsheet.
document (PDD)JCM project which sets out in detail the JCM project. A Project design document (PDD) consists of a completed PDD form and monitoring plan using a Monitoring Plan Sheet and Monitoring Structure Sheet of the Monitoring Spreadsheet. The form of PDD, Monitoring Spreadsheet, and guidelines on preparing the PDD, are publicly available through the JCM website.23.Monitoring planA monitoring plan sets out the methodology to be used by project participants for the monitoring of, and by third-party entities for verification of the amount of GHGs emission reductions achieved by the JCM project. A monitoring plan is developed using Monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Spreadsheet.24.Monitoring reportA monitoring report is prepared by a project
 23. Monitoring plan A monitoring plan sets out the methodology to be used by project participants for the monitoring of, and by third-party entities for verification of the amount of GHGs emission reductions achieved by the JCM project. A monitoring plan is developed using Monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Spreadsheet. 24. Monitoring report A monitoring report is prepared by a project
 third-party entities for verification of the amount of GHGs emission reductions achieved by the JCM project. A monitoring plan is developed using Monitoring Plan Sheet and Monitoring Structure Sheet of Monitoring Spreadsheet. Monitoring report A monitoring report is prepared by a project
24. Monitoring report A monitoring report is prepared by a project
DALICUATI ADD SCIS OUT THE VIEW EDDSSION FEODCIODS

Category	No.	Term	Definition
			of an implemented registered JCM project for a particular monitoring period. A monitoring plan is prepared using a Monitoring Report Sheet of a Monitoring Spreadsheet.
	25.	Registry	Each government establishes a registry to record and use JCM credits (RoI para.40).
	26.	JCM Credit	Credits under the JCM are issued based on quantified amount of GHG emission reductions or removals achieved by project participants in the implementation of GHG emission reductions or removals project activities under the JCM (RoI para.4). The credits are measured in metric tons of carbon dioxide equivalent (tCO ₂ eq) in line with the methodologies and metrics assessed by the Intergovernmental Panel on Climate Change (RoI para.40).
Project cycle	27.	Modalities of communication statement (MoC)	A modalities of communication statement (MoC) from (or signed by) all project participants participating in a JCM project, defined in a prescribed form, that designates one focal point entity to communicate on their behalf with the JCM secretariat and the Joint Committee in line with established scopes.
	28.	Validation	Validation is the process of independent evaluation of a proposed JCM project by a third-party entity against the Guidelines for Validation and Verification. (RoI para.25).
	29.	Registration	Registration is the formal acceptance by the Joint Committee of a validated project as a JCM project (RoI para.30).
	30.	Monitoring	Project participants implement a JCM project and monitor GHG emission reductions or removals by the JCM project based on the PDD (RoI para.34).
	31.	Verification	Verification is the periodic independent review and ex post determination of monitored GHG emissions reductions or removals for a specific monitoring period of a registered JCM project conducted by a third-party entity (RoI para.35).
	32.	Issuance of JCM credits	The action taken by each government to issue the JCM credits to its respective account in the registry in line with the notification of the Joint Committee.
