

**Modification of the Bilateral Document for  
“Partnership on the Joint Crediting Mechanism  
between the Japanese side and the Saudi Arabian side”**

The Japanese side and the Saudi Arabian side consent on 18 October 2017 to modify the paragraph 11 of the Bilateral Document for “Partnership on the Joint Crediting Mechanism between the Japanese side and the Saudi Arabian side” as follows:

11. This partnership covers the period for verified emission reductions or removals from the mitigation projects under the JCM to be made until 2030. Both sides consider possible extension of the above-mentioned period and reach a conclusion by 2030. However, either side may terminate this partnership at any time, provided that at least six months prior notice of termination has been given to the other side. In that case, ongoing projects or activities carried out within the framework of this partnership will be covered by this partnership onto their completion.
