Comment on the page:

According to Section 3.1 of <https://www.env.go.jp/content/000123179.pdf>, for private JCM projects, the preparation of a Project Idea Note (PIN) is fundamentally required. After preparation, the PIN will be reviewed by the JCM Secretariat, followed by confirmation from relevant JCM-related ministries and agencies. Based on the project's credibility and other factors, the PIN will be shared with the partner country's government.

Has a PIN been prepared for this project? This information should be reflected in Section E.1.
