LETTER OF CONSENT

We, Sony Semiconductor Manufacturing Corporation and Sony Device Technology (Thailand) Co., Ltd., hereby give our consent to implement the steps below to prevent the release of refrigerant when replacing the project chillers under the Joint Crediting Mechanism (JCM) projects, "Installation of High Efficiency Air Conditioning System and Chillers in Semiconductor Factory" and "Energy Saving for Semiconductor Factory with High Efficiency Centrifugal Chiller and Compressor."

- (1) Maintenance work for the chillers will be carried out in accordance with the directions given by the manufacturer, "Mitsubishi Heavy Industries, Ltd."
- (2) At the time of collection of the refrigerant from the project chillers, Sony Device Technology (Thailand) Co., Ltd., will outsource the works to Mitsubishi Heavy Industries - Mahajak Air Conditioners Co., Ltd. (located at 220 Soi Chalongsong 31 Lamplatiw, Lad Krabang, Bangkok 10520 Thailand) or Mitsubishi Heavy Industries Thermal Systems, Ltd. (located at 16-5, Konan 2-chome, Minato-ku, Tokyo, 108-8215 Japan), who possess the necessary collection devices, containers, and equipment.
- (3) When carrying out the recovery of refrigerant from the project chillers and to avoid the release of any Freon, "Freon Collection Guidelines (2008)" of the Industrial Network for Fluorocarbon Recovery Promotion (INFREP) and others shall be referred to as recommended by the manufacturer, "Mitsubishi Heavy Industries, Ltd." See the attached guidelines.
