|                      |            |                     |                  |       |                   |                |                                    |                      |                |
|                      |            |                     |                  |       |                   |                |                                    |                      |                |
|                      |            |                     |                  |       |                   |                |                                    |                      |                |

Table 2: Project-specific parameters to be fixed ex ante

| (a)        | (b)                 | (c)              | (d)   | (e)            | (f)            |
|------------|---------------------|------------------|-------|----------------|----------------|
| Parameters | Description of data | Estimated Values | Units | Source of data | Other comments |
|            |                     |                  |       |                |                |
|            |                     |                  |       |                |                |
|            |                     |                  |       |                |                |

# Table3: Ex-ante estimation of CO<sub>2</sub> emission reductions

| CO <sub>2</sub> emission reductions | Units               |
|-------------------------------------|---------------------|
| 0                                   | tCO <sub>2</sub> /p |

### [Monitoring option]

| Option A | Based on public data which is measured by entities other than the project participants (Data used: publicly recognized data such as statistical data and specifications) |
|----------|--|
| Option B | Based on the amount of transaction which is measured directly using measuring equipments (Data used: commercial evidence such as invoices)                               |
| Option C | Based on the actual measurement using measuring equipments (Data used: measured values)  |

# JCM Proposed Methodology Spreadsheet Form (Calculation Process Sheet)

[Attachment to Proposed Methodology Form]

| 1. Calculations for emission reductions        | Fuel type | Value | Units               | Parameter |
|--|-----------|-------|---------------------|-----------|
| Emission reductions during the period p        |           | 0     | tCO <sub>2</sub> /p | ERp       |
| 2. Selected default values, etc.               |           |       |                     |           |
|  |           |       |                     |           |
|  |           |       |                     |           |
